

Datasheet

IP-SDS - PoE Single Door Station

Product Description

CDVI's intercom system provides video entry solutions for residential and commercial properties alike. With both IP and a free smartphone app, take advantage of a flexible, affordable and reliable security system.

The IP-SDS is a single-button station ideal for a single-home or small business. Up to 32 monitors can be connected this device. Pushing the button will call all monitors inside the building.

The IP system facilitates connection through PoE, making the intercom system seamless and easy to use.
