

Calbrite™

Stainless Steel Conduit Systems

Stainless Steel Right Angle Clamp

Features:

- Manufactured in type 316 stainless steel for increased corrosion resistance
- Polished with standard "brite" finish to increase corrosion resistance and aesthetic appearance
- Stainless steel hex nuts included
- No package qty. required

Certifications and Compliances:

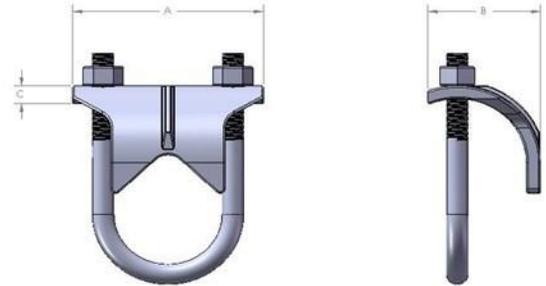

Calbrite stainless steel Right Angle Clamps are fabricated to UL and ASTM A351 / F593 Standards.

Applications:

Designed to fit stainless rigid, IMC, & EMT conduit. Can also be used for PVC-coated conduit. Calbrite Right Angle Clamps are used to mount conduit to the flange of a structural member without drilling holes. Cast in 316 stainless steel, these clamps provide both excellent strength and corrosion resistance.

Industries Commonly Served:

- Food & Beverage Production & Distribution
- Chemical Plants
- Water & Wastewater Treatment
- Pharmaceuticals & Cosmetics
- Refining & Extraction Sites
- Petrochemical Operations
- Marine & Coastal Facilities
- Pulp and Paper Mills
- Along with other corrosive environments

Size	Part Number	A	B	C	Weight (ea) per lb.
1/2"	S60500RA00	2.000"	1.600"	.270"	0.33
