

Connects to MODbox™ Mobile Workstation

WIRE DISPENSER

MODbox™ Wire Dispenser streamlines wire management on the job site. It holds up to four 500' spools of 10AWG wire inside and additional reels outside via a through-hole for conduit. Front guides and wire captures prevent unraveling. The lid with kickstand stays open for ceiling pulls. Built from impact-resistant polymers, supports up to 120-pounds, and has side rails for attachments. Easily connects with other MODbox™ components to make a custom mobile workstation.

Steel reinforced
lock location

Metal kickstand
keeps lid open for
ceiling pulls

Through-hole
for conduit

Side rails for
attachments

Top and bottom interlocks
with MODbox™ components

Add additional spools
on the outside

Fits up to (4) 500'
spools of 10AWG
on the inside
