LIGHTING

NUVO®

Impressive first impressions. The Nuvo Outdoor Collections.

Nothing makes a home or condo complex safer or more welcoming after dark than a well-planned outdoor lighting design, and no lighting manufacturer offers more ways to help than Nuvo.

Nuvo's newest outdoor collections include hanging lanterns, wall- and pole-mounted fixtures, as well as floods, spots, pathway and landscape lighting -- all coordinated in styles that range from classic to contemporary and even industrial. The possibilities for dramatic outdoor lighting have never been greater.

Nuvo was launched in 2005 with more than 1,500 new lighting fixtures, and our product line has grown every year since. From the beginning, our goal has been to offer the broadest range of lighting fixtures constructed of the finest materials and manufactured to the highest standards of quality, all backed by the more than 45 years of industry experience of Satco Products.

collection, (page 14).

contents

Beautiful by day.

Magical by night.

Details matter, any time of day. As one approaches a private home, apartment or condo complex, or office building, it's the details that are making a subconscious yet instant impression on visitors.

Whether lit or not, every driveway, path or entry point seems a bit more inviting and more impressive when accented with the proper fixtures.

Nuvo outdoor fixtures have the detail, the finishes and the variety of shapes and styles to make every structure a memorable destination, not just another building. Whether drawing attention to landscaping details, properly lighting a pathway and entry point, or transforming an entire structure, Nuvo has the right outdoor fixture type.

It's the mark of great lighting; beautiful by day, magical by night.

introduction

experience

The gentle curve of Wingate's canopy flows into a classic square cage with Clear Seeded glass panes, while the support offers a hand-wrought feel. Finished in Textured Black, these delicate features give this impressive lantern a very light, elegant appearance.

WINGATE

Large Wall Lantern

aston

Curb appeal that doesn't end

when the sun goes down.

Inviting

Curb appeal doesn't just make homes more attractive to potential buyers. It makes them more beautiful, rewarding places for homeowners to live in every day -- as well as every night.

Decorative outdoor and landscape lighting can accentuate key architectural features, illuminate paths and entryways, and highlight distinctive plantings -- making any home a warmer, more inviting place after dark. Nuvo's outdoor collections feature the coordinated fixtures you'll need to implement any comprehensive lighting plan, in a range of styles to complement any home's exterior. Of all the ways to add real beauty and value to a home, Nuvo outdoor lighting is among the simplest and least expensive.

Available in White, Rustic Bronze or Textured Black, the classic Adams lantern uses divided-light frosted glass that's the perfect complement to homes using the same window style.

ADAMS

Wall Lantern / Arm Up

Outdoor lighting isn't just a requirement.

It's an opportunity.

Most local building codes set minimum safety standards for the exterior lighting of homes, apartment and condominium complexes. But supplementing mandated lights with well-placed decorative and landscape fixtures is an inexpensive way to increase the warmth and beauty of any property's outdoor lighting plan, adding real value in the minds of owners and potential buyers. Nuvo's outdoor collections feature high-quality lighting systems that let architects, landscape designers and home owners accentuate their work with coordinated fixtures that look as good by day as they do at night.

accentuate

Landscaping comes to life at night with these attractive fixtures. Entire gardens and yards can be illuminated for both beauty and safety with little or no intrusion on the overall landscape design.
