

# P&S Universal Cast Covers

December 2011

Designed with heavy-duty, die-cast zinc, P&S Universal Cast Covers shrug off the worst weather, while meeting all new regulatory requirements for receptacles and power outlets in outdoor damp locations. Both the single- and two-gang covers can meet six applications in one. The single-gang mounts either vertically or horizontally, and comes with toggle, decorator and duplex plate inserts. The two-gang mounts vertically only, but comes with two of each of the plate openings.

## Features & Benefits

- Compliant with 2008 *National Electrical Code*® (NEC®) Section 406.8(B)(1)
- Inserts for #1 toggle switch, #26 GFCI and #8 Duplex Receptacle openings
- One-piece design for fast, easy installation
- Corrosion-resistant coating
- Easy-to-open, cam-action latch
- Two-gang covers lock independently
- Stainless steel springs
- Neat, unobtrusive appearance

## Applications

- Designed for fast, easy, code-compliant installation in outdoor damp residential environments.
