MANUFACTURER OF FASTENING SUPPORTS

## Corrosion Resistant

### 316 Stainless Steel Bridle Ring

HARSH  
ENVIRONMENT  
PRODUCTS

Corrosion resistant cable management solution for harsh environments for voice, data, low voltage or video cabling pathway applications

#### Features:

- Time saving and cost-effective alternative compared to using mesh cable basket or ladder tray
- Premium grade 316 stainless steel
- Superior corrosion resistance in aggressive environments and exposure to chlorides, acids, and marine conditions
- Available in 1.25", 2" and 4" ring diameter
- Designed with open loop for quick & easy cable installation
- Provides support for CAT5e/CAT6 category cable, low-voltage wire, coax, signal & control cable and electrical wire up to 600V
- Quick & easy installation without specialized tools and equipment
- 1/4"-20 machine thread for use with beam clamps or other clamping devices
- Rust resistant
- Supports up to 50 lbs
- UL & CUL listed

#### Application:

- Provides support in the distribution of wire & cable bundles
  - Network/Data
  - Telcom/Voice
  - Broadband, Satellite, CCTV
  - Low Voltage/Security/Fire Alarm
  - Signal/Control Cable
  - Electrical Wire

#### Installation:

- Fastens to 1/4"-20 threaded clamp or anchor for installation to steel beams or concrete
- Used for horizontal or vertical cable runs

### Part Numbers

| Part #     | Description  | Box Qty | UPC          |
|------------|--|---------|--------------|
| WBR4T125SS | 1 1/4" Bridle Ring, 1/4-20 Thread, 316 Stainless Steel | 100     | 811443031168 |
| WBR4T200SS | 2" Bridle Ring, 1/4-20 Thread, 316 Stainless Steel     | 100     | 811443031175 |
| WBR4T400SS | 4" Bridle Ring, 1/4-20 Thread, 316 Stainless Steel     | 100     | 811443031182 |

- | Fully versatile solution that can be combined with different hanging fasteners and support brackets |
- | Fast and cost-effective way to support category, voice, security, fire alarm and video cable |
- | Very durable in the harshest of conditions |
- | Great low-cost alternative to j hook or cable tray |
- | Can be used on walls or ceilings, making them ideal for multi-directional cable runs |
- | If using a bridle ring with high performance data cable, a saddle is required to ensure proper bend |
- | Non-continuous supports may not exceed spacing of 5' per TIA 569-C.9.7 |
