

Winnie Industries

MANUFACTURER OF FASTENING SUPPORTS

Deep Electrical Junction Box

T BOX™ 4" Square

Eliminate the need for bends or offsets by allowing conduit runs to enter straight into the box

Features:

- Galvanized steel construction
- Welded design for strength and ease of use
- 43 cubic inch capacity
- Extra deep for added volume and wire bending space
- Double gang
- Access to side knockouts in all directions
- (8) ½" knockouts
- (6) ½"-3/4" knockouts
- (2) 8-32 combination Phillips/slotted screws
- Raised ground for easy install
- Tested in accordance with UL 514-A and CSA C22.2 No. 18.1 standard for metallic outlet boxes
- UL & CUL Listed

Application:

- For use with lighting fixtures, switches or receptacles
- Use in applications where multiple conductor runs are split into two or more directions
- Ideal where extra depth is needed for dimmers, cameras, speakers, strobes, signals and electronic devices
- Suitable for use without a bonding jumper in circuits up to 600 volts

Installation:

- Direct ceiling mount to joist or strut
- Ideal for exposed ceiling applications
- With appropriate fittings, T Box™ may be used with conduit, metal-clad (MC) cable, or nonmetallic-sheathed (NM) cable
